## Enteric Medical Technologies acquired by Boston Scientific Corporation

San Francisco Business Times

Date: Thursday, May 30, 2002, 3:09pm PDT

Enteric Medical Technologies (EMT) agreed to be bought out by Massachusetts-based **Boston Scientific Corporation**.

EMT, a Foster City-based company, designs, manufactures and markets Enteryx, a liquid polymer technology for the treatment of gastroesophageal reflux disease (GERD).

Terms of the agreement were not disclosed, but are subject to EMT stockholders' approval.
