

Medical Device Incubator Services

- Use of Certified Cleanrooms
- Office space
- ISO 13485 manufacturing
- Quality management system development

Comprehensive outsourcing solutions for medical device innovators, including facilities, clean rooms, and experienced manufacturing guidance from industry experts.

Over the past 25 years, more than 50 of our clients have been acquired for an aggregate value greater than \$5 billion.

CEPA Certified Cleanrooms

LSO delivers Cleaning and decontamination solutions for reusable and single use medical devices to eliminate bio-hazardous material, meet safety requirements, and ensure necessary certifications.

Office space with a physical address

From precision assembly to collating and kitting educational materials - LSO offers turnkey medical device manufacturing and assembly services.

ISO 13485 Facility Utilization

LSO has the in-house capability, regulatory and quality management expertise to ensure every label is compliant and of the highest quality.

Quality Management System development

Comprehensive contract sterilization services and expertise to guide all medical device clients through the sterilization and validation of single use and reusable products and related documentation.

Bringing Medical Innovations to Life

Start Up. Speed Up. Scale Up.

Life Science Outsourcing is a performance-driven Contract Manufacturing Organization. Our unique model leverages in house end-to-end solutions and service offerings, coupled with deep regulatory knowledge. This allows us to provide the agility and flexibility that customers need to accelerate their go to market launches, while streamlining their supply chain and mitigating risk.

Our core services include: assembly, packaging, sterilization, reagent packaging & design, thermoforming, and resorbables.
